The highest quality pool fencing glass.

We have developed a reputation in the trade for supplying the highest quality tempered glass. Absolute attention to detail in production, packing and quality control mean clients can be assured of consistency of top quality products

Glass factory

All steps in production process reach the highest quality levels

Float glass

- All glass is processed from the same float glass supplier
- Quality and die batch of glass remains consistent
- Strict quality checks to ensure only conforming float glass is processed

Double edge polishing machines

- Perfect polish and blemish free edges
- Horizontal double edge polishing machines give the finest edge finish
- Speed of glass through edging machine is monitored
- Quality control personnel check each sheet of glass
- Sophisticated water filtration system ensures clean water is used during polishing

Tempering oven

Toughened glass is made from annealed glass via a thermal tempering process. The glass is placed onto a roller table, taking it through a furnace that heats it above its annealing point of approx 700 °C. The glass is then rapidly cooled with forced air drafts. Of critical importance in glass processing is the tempering furnace used

- New furnace used can toughen up to 2440mm x 3600mm glass
- Specially designed furnace for heavy glass – Optimally toughens 8mm thick and above
- On-site mechanic ensures regular maintenance
- Punch testing of toughened glass every hour as per Australian Standards

Tested & certified

Our 6mm, 8mm, 10mm & 12mm glass is tested and certified as complying with the requirements of Australian & New Zealand Standard 2208:1996 - Safety Glazing Material in Buildings

Detailed quality control

At each stage of production (cutting, polishing, drilling, tempering and packing) dedicated Quality Control Personnel inspect each sheet of glass. Glass identified as not conforming to the highest quality standards is set aside.

In addition to skilled factory staff, we retain our own Quality Assurance people to review shipments. Random sampling of glass is undertaken to ensure compliance with detailed quality assurance specifications relating to glass surface finish, edge finish, labelling identification, packing specification and the like. Quality assurance reports are provided to us and the factory to ensure the highest standards are continually achieved and monitored.

Full ERP system implemented with each sheet barcoded: records kept to show exact time glass processed at each step of production = industry leading manufacturing.

GASP testing machine: MEASURING SURFACE STRESS IN TEMPERED GLASS to ensure optimal tensile surface strength. Testing with the GASP machine allows optimisation of furnace settings; ensures conformance to specifications and avoids under or over-stressing glass.

Attention to detail in packing

At the packing stage of production, all glass panels pass through purpose built inspection racks where there is a 100% QC check to ensure only glass panels that conform to strict requirements of edge work, flatness, squareness, perfect radius corners and a range of further detailed specifications are allowed to be packed.

We're serious about quality, seriously.

Pool fencing glass is Grade “A” standard and proudly displays the SAI Global certified product mark.

We are authorised to display the SAI Global product conformance mark as confirmation that the manufacturing process is able to consistently produce glass in compliance with AS/NZS 2208: 1996 Safety Glazing Materials In Buildings.

Taking the extra steps

In addition to SAI Global conformance, we retain the services of SGS. SGS is internationally recognized as the leader for inspection, verification, testing and certification with 90,000 employees and 2000 offices globally.

Glass Outlet has retained SGS to review and audit factory compliance to detailed production requirements as set out by SAI Global in conjunction with requirements of AS/NZS 2208:1996.

Companies globally rely on SGS for independent third-party inspections, testing and auditing solutions to ensure products, services and processes comply with the latest quality standards.

The combined efforts of a world leading production facility, SAI Global conformance and independent auditing by SGS ensure Glass Outlet supplies industry leading quality.

12MM TOUGHENED GLASS

Our large range of 12mm thick clear toughened glass pool panels allows you to select an installation configuration to cover nearly all frameless situations.

Panels are produced under strict quality conformance requirements which has led to recognition as the industry leading supplier.

- 12mm thick clear toughened
- 5mm radius corners
- Suits friction spigots
- No hole toughened glass
- Superior edge finishing
- Grade 'A' toughened glass
- Australian standards compliant AS/NZS2208
- Corner protectors in packing

8MM MASTER RANGE GATE PANELS

We offer 3 widths of 8mm clear toughened pool gate panels. The gates may be used to hinge from glass hinge panels or adjacent walls or posts. Holes are pre-drilled in gates to match Master Range hardware.

8mm thick glass gates are lighter than 10mm or 12mm thick glass gates which leads to less wear and tear on gate hardware over the long term.

- 8mm thick clear toughened
- 2mm radius corners
- Suits master range hardware
- 6x Ø10mm holes

Order Code	Width	Height	Sqm	Weight
08SLG-0750	750mm	1200mm	0.90	18kg
08SLG-0834	834mm	1200mm	1.00	20kg
08SLG-0890	890mm	1200mm	1.07	21kg

12MM MASTER RANGE HINGE PANELS

We offer 9 widths of 12mm thick toughened hinge panels to suit Master Range hinge hardware.

With a selection of 9 hinge panel widths plus 3 gate widths, the majority of installation configurations may be satisfied.

- 12mm thick clear toughened
- 5mm radius corners
- Suits master range hardware
- 4x Ø14mm holes

Use with glass to glass Master Range hinges

See page 51 for specs

12MM POLARIS GATE PANELS

Suits glass to glass installation

Suits glass to wall/post installation

We offer 2 widths of gates to suit Polaris Soft Close hinges.

Polaris hinges are specially designed with a soft close action to take the weight of a 12mm thick glass gate.

The depth of the glass cut outs differ between the wall/post hinge gate and the glass to glass gate. A deeper hinge cut out is required for the wall/post glass gate, which is why two gate types are offered.

Application	Order Code	Width	Height	Sqm	Weight
Glass to glass	12PGG-0800	800mm	1200mm	0.96	29kg
	12PGG-0900	900mm	1200mm	1.08	32kg

12MM RETAINING WALL PANELS

To be compliant to pool fencing requirements, raked panels may be needed.

Our raked panels are higher at one side of the glass which enables step points or changes in height to be overcome. We have 1200mm wide panels with 3 heights available. The modular raked panels are at a large cost saving to custom made raked glass and also enable jobs to be completed immediately.

Please take care to refer to relevant Standards to ensure our raked panels are suitable for your needs as each installation situation/compliance requirement is unique.

- 12mm thick clear toughened
- 5mm radius corners
- Suits friction spigots
- No hole toughened glass
- Superior edge finishing
- Grade 'A' toughened glass
- Australian standards compliant AS/NZS2208
- Corner protectors in packing

Order Code	Width	Height	Sqm	Weight
12NRP-1400HT	1200mm	1400mm	1.60	48kg
12NRP-1600HT	1200mm	1600mm	1.76	53kg
12NRP-1800HT	1200mm	1800mm	1.92	58kg

Overcome different levels along fence line

Overcome landscaping as a toe hold along fence line

Overcome stepping point issues around fence line

Consider using RIGI clamps to provide extra rigidity for bracing to adjacent panels

See page 68 for specs

Friction spigot range

Glass Outlet's commitment to quality and compliance means we supply carefully designed products, keeping in mind both appearance and also Australian Standards' load requirements. Each product range is vigorously tested for material composition (compliance to stainless steel composition for example) and is tested by a NATA certified testing body to load requirements.

Our large range of spigots and finishes ensures a product selection is possible for all install situations.

Madrid range SS2205

Core drill & base plated

- Duplex stainless steel 2205
- Polish, satin or matt black finish
- Recessed friction plate for ease of installation
- Single friction
- Maximum strength

Pool Madrid range SS2205

Core drill & base plated

- Duplex stainless steel 2205
- Polish or satin finish
- Recessed friction plate for ease of installation
- Single friction
- Specifically designed for pool fence load requirements at an incredible price point

extended body

Pool Madrid range SS2205

Core drill

- Duplex stainless steel 2205
- Polish, satin or matt black finish
- Recessed friction plate for ease of installation
- Single friction core drill spigot
- Extended body ideal where extra depth required for pool fencing installations

Madrid face mount SS2205

Face mount

NEW!

- Duplex stainless steel 2205
- Polish, satin or matt black finish
- Recessed friction plate for ease of installation
- Single friction
- Face mount with hidden fixings
- Ideal for narrow width slab installations

Madrid tilt SS2205

Face mount

NEW!

- Duplex stainless steel 2205
- Polish, satin or matt black finish
- Face mount installation
- Ideal for narrow width slabs
- Innovative tilt adjustment assists with aligning glass panels

Madrid deluxe SS2205

Top fix

- Duplex stainless steel 2205
- Polish or satin finish
- Single central bottom fixing
- Ideal for narrow beams or slabs
- No need for dress rings or base plate covers

Pool fencing compliant

Friction fits to 12mm glass

Australia's largest range

Easy to courier

Lifestyle range SS2205

PATENTED DOUBLE FRICTION

Core drill & base plated

- Round and square spigots available
- Duplex stainless steel 2205
- Polish, satin or matt black finish
- Base plate has multiple fixing points for easy installation & domical cover included
- Double friction assists glass panel alignment

Ultra range Anodised Aluminium

PATENTED DOUBLE FRICTION

Core drill & base plated

- Aluminium spigot with superb anodised finish
- Satin finish
- Anodising avoids issues such as tea-staining present with stainless steel
- Double friction assists glass panel alignment

Rio range SS2205

Core drill & base plated

- Duplex stainless steel 2205
- Polish or satin finish
- Recessed friction plate for ease of installation
- Single friction

Versa-tilt Anodised Aluminium

Deck mount or face mount

Tighten upper screw

Tilt glass forward

Tighten lower screw

Tilt glass back

- Clear anodised internal aluminium channel to guard against corrosion
- Brushed satin or mill finish aluminium fixing covers
- Tilt adjustable glazing channel
- Pre-machined fixing holes in channel
- Deck/inground or face mount options

PATENTED PRODUCT

NEW!

Spigot insulator

Core drill

- Simply sleeve over Madrid stainless steel core drill spigot prior to install or can be retrofitted after spigot install
- Made from ASA thermoplastic – excellent weather and chemical resistance and high impact strength
- Non-conductive material effectively insulates stainless steel spigots
- Black or silver finish

Pool fencing compliant

Friction fits to 12mm glass

Matching accessories

Trade quality products

MADRID RANGE SS2205

Stainless steel 2205 is a superior duplex stainless steel which features elevated levels of chemical components enabling superior strength and corrosion resistance in harsh marine environments. The Madrid range has been designed with superior strength and a slimline profile.

Core drill spigot

FRICITION FIT

Polish, satin or matt black finish

Order Code: **MAD-S-P** (Polish)

MAD-S-S (Satin)

MAD-S-B (Black)

- Duplex stainless steel 2205 - designed for superior strength
- Square shape with minimal visible fixings
- Modern 45mm front profile
- M10 bolt at bottom enables up to 60mm of vertical height adjustment, a contact point for earthing, and extra anchoring in footings (helpful when working with sand)
- Recessed single friction plate for neat finish & easy installation
- Tapered packer included (1mm to 1.5mm) to enable tilt adjustment of glass

Optional extras

Flat dress ring

100mm x 100mm outer

Polish, satin or matt black finish

Order Code: **MAD-DR-P**

MAD-DR-S

MAD-DR-B

Raised dress ring

100mm x 100mm outer

Polish, satin or matt black finish

Order Code: **MAD-DR-RAISED-P**

MAD-DR-RAISED-S

MAD-DR-RAISED-B

Highest quality finish

The Madrid matt black spigots use genuine Akzo Nobel textured powder to provide the highly sought after matt black finish.

To ensure proper adhesion of powder to stainless steel, a special pre-treatment is undertaken whereby a thin, zirconium based conversion layer is applied to the stainless steel substrate. This special coating provides robust corrosion protection and enhanced paint adhesion.

NOTE: DRAWINGS ARE NOT TO SCALE

MADRID RANGE SS2205

The friction plate in the Madrid Range has been specially designed to provide maximum clamping action on the toughened glass. A stainless steel plate is moulded into the friction plate which is the entire width & height of the spigot mouth. This ensures maximum distributed clamping action.

Base plated spigot

FRICION FIT

Polish, satin or matt black finish

Order Code: **MAD-SBP-P** (Polish)

MAD-SBP-S (Satin)

MAD-SBP-B (Black)

- Duplex stainless steel 2205
- Contemporary tapered top to comply with 'no toe hold' requirements
- Base plate has 4x countersunk holes to enable flush fixing. Countersunk timber screw available (hex head drive)
- Modern square shape with minimal visible fixings
- Recessed single friction plate for neat finish & easy installation
- Tapered packer included (1mm to 1.5mm) to enable tilt adjustment of glass
- Structure of spigot maximises strength

Optional extras

Slimline domical cover

12mm high

Polish, satin or matt black finish

Order Code: **MAD-SDC-P**

MAD-SDC-S

MAD-SDC-B

High domical cover

22mm high

Polish, satin or matt black finish

Order Code: **MAD-HDC-P**

MAD-HDC-S

MAD-HDC-B

Consider when using dynabolts or high fixings & fasteners

See page 36 for convenient timber & concrete fixing kits for base plated installs

MADRID POOL SS2205

Designed specifically for pool fencing load requirements, the Madrid pool spigot range is the ultimate in quality at an unbelievable price point.

Madrid pool spigot

FRICION FIT

Polish or satin finish

Order Code:

Core drill: POOLMAD-S-P (Polish)

POOLMAD-S-S (Satin)

Base plated: POOLMAD-SBP-P (Polish)

POOLMAD-SBP-S (Satin)

- Duplex stainless steel 2205
- Contemporary tapered top to comply with 'no toe hold' requirements
- Base plate has 4x countersunk holes to enable flush fixing
- Use with standard madrid dress rings and domical cover
- 45mm front profile
- Earthing terminal included
- Recessed friction plate provides a neat finish and easy installation
- M10 bolt at bottom of core drill spigot allows for height adjustment and adds extra anchoring strength
- Designed for pool fencing load requirements while keeping price point in mind

Notched base plate for centre line alignment

Handy earthing terminal on core drill & base plated spigots

See page 14-15 for dress ring and domical cover options

Amazing price point!

MADRID POOL EXTENDED SS2205

The Extended Pool Madrid spigot is ideal where extra depth is required for core drilling – for example, core drilling through pavers to concrete below.

extended body

Madrid pool spigot

FRICION FIT

Polish, satin or matt black finish

Order Code: POOLMAD-EXT-S-P (Polish)

POOLMAD-EXT-S-S (Satin)

POOLMAD-EXT-S-B (Black)

- Duplex stainless steel 2205
- Use with standard madrid dress rings
- 45mm front profile
- Earthing terminal included
- Recessed friction plate provides a neat finish and easy installation
- 285mm long plus M10 height adjustment bolt
- Ideal where deeper core drilling is required
- Designed for pool fencing load requirements while keeping price point in mind

Optional extras

Flat dress ring

100mm x 100mm

Polish, satin or matt black finish

MADRID FACE MOUNT SS2205

Innovative solution for face mounting of glass with no visible fixings. This spigot is ideal for out of ground pools which have a narrow top perimeter. Made from superior Duplex 2205 stainless steel ensuring strength and high corrosion resistance.

Face mount spigot

FRICION FIT

Polish, satin or matt black finish

Order Code: **MAD-FACEM-P** (Polish)

MAD-FACEM-S (Satin)

MAD-FACEM-B (Black)

- Duplex stainless steel 2205
- Slimline 45mm front profile
- Face mount installation - no need for core drill or base plated spigots
- 2x M12 fixing nuts included (M12 lag screw or threaded rod sold separately)
- Slotted fixing hole allows for easy positioning of fixings
- Cover plate hides fixings for neat finish
- Earthing terminal included
- Height adjustment packers and stand offs available - ideal where tile coping protrudes past slab edge
- Friction screws for clamping plate situated on inside of balcony/pool for easy install

See page 22 for our complete range of M12 fixings

Optional extras

Easily overcome height variances

Stackable packer

3mm thick

Polish, satin or matt black finish

Order Code:

MAD-FACEM-3PKR-P

MAD-FACEM-3PKR-S

MAD-FACEM-3PKR-B

Ideal for use when tile coping is present. Allows for positioning spigot away from edge

Ø38mm standoff

10mm thick

Polish, satin or matt black finish

MADRID TILT SS2205

NEW!

Madrid tilt spigot

FRICTION FIT

Polish, satin or matt black finish

Order Code: **MAD-TILT-S-P (Polish)**

MAD-TILT-S-S (Satin)

MAD-TILT-S-B (Black)

- Duplex stainless steel 2205
- Face mount spigot - fix to vertical surface of concrete, timber/steel beams or bearers
- 2 part spigot for easy install: (1) rear plate fixed to vertical surface (2) spigot attaches to rear plate with 2 x M8 counter sunk screws
- Tilt adjustable - innovative design allows for tilt adjustment by simply turning top and bottom M8 grub screws
- Glass alignment adjustability is a huge installation advantage
- Timber/beam fixing - 2 x fixing points in the rear plate for increased strength
- Concrete fixing - ideal for narrow slabs with 1 x sturdy M18 fixing
- Neat finish - slide in cover plate hides exposed screws on spigot front
- Earthing terminal included
- 3mm stackable horseshoe packers sold separately that can be inserted behind rear plate to overcome uneven vertical surfaces

Optional extras

M18 fixing kit

SS304

1 x M18x120mm threaded rod, 1 x flat washer, 1 x spring washer & 1 x nut

Order Code:

MAD-TILT-M18KIT

Commonly used for concrete installations - single fixing ideal for narrow slabs

M12 fixing kit

SS304

2 x M12x93mm lag screws, 2 x flat washers, 2 x spring washers & 2 x nuts

Order Code:

MAD-TILT-M12KIT

Commonly used for timber/beam fixing (M12 threaded rod may also be used with rear lock nuts as an alternative to lag screw timber/beam fixing - M12 threaded rod and rear fixing nut not included in MAD-TILT-M12KIT)

Stackable packer

BLACK HDPE

3mm thick

Order Code:

MAD-TILT-PKR

Fits between wall/beam and rear plate to overcome uneven surfaces. Horseshoe shape design allows easy installation

TILT GLASS BACK

TILT GLASS FORWARD

EASY TILT ADJUSTMENT

Innovative design - M8 pointed grub screw in top and bottom of spigot pushes onto 45 angle of rear plate allowing front spigot to tilt forward or back.

TILT GLASS BACK

Unwind top M8 grub screw slightly and tighten bottom M8 grub screw to tilt glass back

TILT GLASS FORWARD

Tighten top M8 grub screw and unwind bottom M8 grub screw slightly to tilt glass forward

MADRID TILT SS2205

- 1** 110mmH x 42.4mm W x 3mm Thick HDPE packer
// Fit between wall/beam and back plate if uneven vertical surface. Stackable packer
- 2** M4 screw SS316 // Crimp earthing wire to spigot (if required) through dedicated earth wire hole
- 3** 102.5mmH x 43mm W SS2205 rear plate // Affixes to vertical surface
- 4** M12 nut & washers SS304 (also supplied with 93mm long lag screws x 2 in kit) // Generally used for timber beam/joist installations
- 5** M18 nut & washers SS304 (also supplied with 120mm long M18 rod in kit) // Generally used for concrete installations
- 6** 131mmH x 50mmW x 65mmD SS2205 spigot front // Attaches to rear plate
- 7** M8 pointed grub screw SS316 // Adjust angle of front spigot and lock off position
- 8** 102.5mmH x 47.5mmW SS2205 friction plate (with 1mm HDPE preglued packer) // Clamping plate to hold 12mm toughened glass in position
- 9** M8 grub screw SS316 // Tightens clamping plate against toughened glass
- 10** 108mmH x 42mmW x 1.5mm D SS316 plate (with countersunk M4 screw) // Slide in stainless steel plate to hide fixings once installed
- 11** M8 x 25mm countersunk screws SS316 x 2 // Attaches spigot front to rear plate

Install note: To ensure plate can slide in, spigot must have 70mm or more gap from floor/ground

Madrid Deluxe top fix clamp

Polish or satin finish

Order Code: **MADDEL-TF-P (Polish)**
MADDEL-TF-S (Satin)

- Top fix spigot installed with single central M12 fixing and specially machined nut
- Single central fixing ideal for narrow/PFC beams and slab installations
- No large core holes, dress rings or domical covers required
- Stainless Steel 2205 spigot in polish or satin finish
- 45mm front slimline profile x 65mm depth
- Suits 12mm up to 17.52mm glass
- Friction fit glass installation with recessed friction packer - no holes in glass required
- 120mm depth spigot mouth provides extra clamping strength and rigidity
- Internal packers included for glass panel alignment and tilt adjustment
- 5mm thick SS2205 height adjustment packer for uneven surfaces available in polish and satin finish (sold separately)

5mm height adjustment packer

Order Code: **MADDEL-TFPR-P**
MADDEL-TFPR-S

- SS2205 in polish or satin finish

MADRID TOP FIX CONCRETE INSTALL GUIDE

NOTE: Attach a stringline to the surface from where the first spigot is being installed to where the last spigot is being installed and note any variance in floor level. Refer to below example for further information.

HEIGHT ADJUSTMENT GUIDE

For larger floor variances, continue same methodology

Floor variance	Adjustment required
1mm - 5mm	Adjust glass with packers in mouth of spigot <i>5mm height adjustment of glass is possible in mouth of spigot</i>
5.1mm - 10mm	Use 1x 5mm stainless packer and adjust glass with packers in mouth of spigot
10.1mm - 15mm	Use 2x 5mm stainless packer and adjust glass with packers in mouth of spigot
15.1mm - 20mm	Use 3x 5mm stainless packer and adjust glass with packers in mouth of spigot
20.1mm - 25mm	Use 4x 5mm stainless packer and adjust glass with packers in mouth of spigot

- 1 Drill 1 x 14mm hole in concrete slab where spigot will be installed. Insert M12 threaded rod into the hole and ensure rod is protruding from the slab 44mm (or as required subject to diagram above). Chemically anchor rods into place.

- 2 Place Madrid Top Fix Spigot down onto M12 fixing. Position machined nut into centrally located cavity in the spigot and tighten nut securely onto thread (It is always recommended to use Loctite on fixing threads). Ensure spigot is firmly and securely fastened down.

Trade tip!

Tilt adjustment and side to side adjustment packers are included with each spigot to assist in installation

Important!

Fixing nut suits 8mm hex drive or 14mm socket

*Please consult your engineer relating to questions of concrete suitability for installations as hardness of concrete may vary. For chemical anchor, refer to the manufacturer's specification of minimum embedment of anchor and hole diameter as specifications may differ between manufacturers. We are unable to give technical advice regarding substrates.

MADRID TOP FIX TIMBER INSTALL GUIDE

NOTE: Attach a stringline to the surface from where the first spigot is being installed to where the last spigot is being installed and note any variance in floor level. Refer to below example for further information.

HEIGHT ADJUSTMENT GUIDE

For larger floor variances, continue same methodology

Floor variance

Adjustment required

1 mm - 5mm

Adjust glass with packers in mouth of spigot *5mm height adjustment of glass is possible in mouth of spigot*

5.1 mm - 10mm

Use 1x 5mm stainless packer and adjust glass with packers in mouth of spigot

10.1 mm - 15mm

Use 2x 5mm stainless packer and adjust glass with packers in mouth of spigot

15.1 mm - 20mm

Use 3x 5mm stainless packer and adjust glass with packers in mouth of spigot

20.1 mm - 25mm

Use 4x 5mm stainless packer and adjust glass with packers in mouth of spigot

- 1** Pre-drill 1x pilot hole into timber where spigot will be installed. Drive M12 lag screw into pilot hole and ensure thread is protruding 44mm from timber (or as required subject to diagram above).

- 2** Place Madrid Top Fix Spigot down onto M12 fixing. Position machined nut into centrally located cavity in the spigot and tighten nut securely onto thread (It is always recommended to use Loctite on fixing nut thread) Ensure spigot is firmly and securely fastened down.

Trade tip!

Tilt adjustment and side to side adjustment packers are included with each spigot to assist in installation

Important!

Fixing nut suits 8mm hex drive or 14mm socket

*Please consult your engineer regarding suitability and structural integrity of timber, steel or other beam/substrate. Timber hardness and strength varies and as each installation situation is different we are unable to provide technical advice regarding suitability of substrate.

MADRID TOP FIX JOIST/BEAM INSTALL GUIDE

NOTE: Attach a stringline to the surface from where the first spigot is being installed to where the last spigot is being installed and note any variance in floor level. Refer to below example for further information.

HEIGHT ADJUSTMENT GUIDE

For larger floor variances, continue same methodology

Floor variance	Adjustment required
1mm - 5mm	Adjust glass with packers in mouth of spigot <i>5mm height adjustment of glass is possible in mouth of spigot</i>
5.1mm - 10mm	Use 1x 5mm stainless packer and adjust glass with packers in mouth of spigot
10.1mm - 15mm	Use 2x 5mm stainless packer and adjust glass with packers in mouth of spigot
15.1mm - 20mm	Use 3x 5mm stainless packer and adjust glass with packers in mouth of spigot
20.1mm - 25mm	Use 4x 5mm stainless packer and adjust glass with packers in mouth of spigot

- 1 Pre-drill 1x 12.5mm or 13mm hole through joist/beam. Insert threaded rods and leave 44mm of thread protruding from top of joist/beam (or as required subject to diagram above). Ensure enough thread is left protruding from underneath the joist/beam for an M12 nut with spring washer to be affixed (purchase from nut & bolt shop).

- 2 Place Madrid Top Fix Spigot down onto M12 fixing. Position machined nut into centrally located cavity in the spigot and tighten nut securely onto thread (It is always recommended to use Loctite on fixing nut thread). Ensure spigot is firmly and securely fastened down.

Trade tip!

Tilt adjustment and side to side adjustment packers are included with each spigot to assist in installation

Important!

Fixing nut suits 8mm hex drive or 14mm socket

Alternative install method

Contact us for full install guide

*Please consult your engineer regarding suitability and structural integrity of timber, steel or other beam/substrate. Timber hardness and strength varies and as each installation situation is different we are unable to provide technical advice regarding suitability of substrate.

LIFESTYLE SQUARE RANGE SS2205

Made from superior strength duplex 2205 grade stainless steel, the Lifestyle square range provides the perfect mix of quality and strength. Innovatively designed recessed friction plates and patented double friction technology enables easy installation.

Core drill pool spigot

DOUBLE FRICTION

Polish, satin or matt black finish

Order Code: LS-DF-S-P (Polish)

LS-DF-S-S (Satin)

LS-DF-S-B (Black)

- Duplex stainless steel 2205
- Square shape with minimal visible fixings
- 45mm front profile
- Patented double friction technology allows for easy tilt adjustment and alignment of frameless glass panels
- Bottom M10 bolt provides up to 60mm of vertical height adjustment and extra anchoring in footings
- Recessed friction plates provide a neat finish and easy installation
- Structure of spigot maximises strength

Includes terminal for quick and easy earthing if required

Optional extras

Flat dress ring

100mm x 100mm outer

Polish, satin or matt black finish

Order Code: LS-DR-P

LS-DR-S

LS-DR-B

Raised dress ring

100mm x 100mm outer

Polish, satin or matt black finish

ULTRA RANGE ANODISED ALUMINIUM

Anodising Aluminium results in a very hard surface finish that is long lasting and easy to maintain. Issues such as 'tea staining' are not applicable with an anodised finish.

Core drill spigot

DOUBLE FRICTION

Brushed satin finish

Order Code: U-DF-S-S (Satin)

- Alloy 6063-T6 Aluminium - superior anodised finish
- Solid extruded aluminium with machining
- Tapered top to comply with 'no toe hold' requirements
- Patented double friction technology allows for easy tilt adjustment and alignment of frameless glass panels
- M16 bolt at bottom enables up to 60mm of vertical height adjustment, a contact point for earthing, and extra anchoring in footings (helpful when working with sand)
- Tea staining issues are not applicable with an anodised finish

Optional extras

Flat dress ring

100mm x 100mm outer

Brushed satin finish

Order Code: U-DR-S

Did you know?

Anodising is an electrolytic passivation process used to increase the thickness of the natural oxide layer on the aluminium surface. The anodised aluminium layer is 'grown' by passing a direct current through an electrolytic solution, with the aluminium object serving as the anode (the positive electrode)

PATENTED double friction TECHNOLOGY

Adjust tilt and sideways alignment of glass easily

ULTRA RANGE ANODISED ALUMINIUM

Anodising Aluminium results in a very hard surface finish that is long lasting and easy to maintain. Issues such as 'tea staining' are not applicable with an anodised finish.

Base plated spigot

DOUBLE FRICTION

Brushed satin finish

Order Code: **U-DF-SBP-S (Satin)**

- Alloy 6063-T6 Aluminium - superior anodised finish
- Tapered top to comply with 'no toe hold' requirements
- Base plate has 4x countersunk holes to enable flush fixing. Countersunk timber screws available (hex head drive) for affixing to timber
- Double friction technology saves installation time due to ease of adjustability
- Base plate is affixed to spigot with sturdy countersunk M18 stainless steel bolt

Optional extras

alignment of glass easily

RIO RANGE SS2205

Stainless steel 2205 is a superior duplex stainless steel which features elevated levels of chemical components enabling superior strength and corrosion resistance in harsh marine environments. The Rio range has been designed with superior strength and a classic round profile.

Core drill spigot

FRICITION FIT

Polish or satin finish

Order Code: RIO-S-P (Polish)

RIO-S-S (Satin)

- Duplex stainless steel 2205
- Stylish round shape designed for maximum strength
- M10 bolt at bottom enables up to 60mm of vertical height adjustment, a contact point for earthing, and extra anchoring in footings (helpful when working with sand)
- Recessed single friction plate for neat finish & easy installation
- Tapered packer included (1mm to 1.5mm) to enable tilt adjustment of glass

Optional extras

Flat dress ring

Ø90mm outer

Polish or satin finish

Order Code: RIO-DR-P

RIO-DR-S

Domed dress ring

Ø102mm outer

Polish or satin finish

Order Code: RIO-SDC-P

RIO-SDC-S

Did you know!

Stainless steel 2205 has far superior corrosion resistance properties and strength than SS316 grade.

This extra strength and corrosion resistance comes from the elevated levels of chromium, molybdenum and nitrogen.

It gets its name 'duplex stainless steel' as its microstructure is essentially half ferrite and half austenite.

RIO RANGE SS2205

Stainless steel 2205 is a superior duplex stainless steel which features elevated levels of chemical components enabling superior strength and corrosion resistance in harsh marine environments. The Rio range has been designed with superior strength and a classic round profile.

Base plated spigot

base plated installs**

SPIGOT INSULATOR

Earthing of spigots is an important consideration when installing pool fencing. Electrical safety laws and wiring rules contain provisions regarding earthing within 125cm of the pool water edge.

Earthing reduces the risk of an electrical shock should there be an electrical fault. The cost involved of earthing spigots is generally high. Importantly, earthing contemplates conductive materials. We have designed and patented a spigot insulator which can be sleeved over a stainless steel Madrid core drill spigot whereby it is not possible to touch the metal spigot. In this way, the installed spigot is completely insulated and non-conductive to touch. Materials which are non-conductive do not require earthing.

Spigot insulator
Black or silver finish
Order Code: **MAD-INS-CD-B (Black)**
MAD-INS-CD-S (Silver)

- 1x SPIGOT INSULATOR
- 1x DRESS RING
- 2x FRICTION SCREW COVERS

- Made from ASA thermoplastic – excellent weather & chemical resistance and high impact strength
- Non-conductive material
- Includes 1x dress ring
- Also includes 2x caps which fit into friction grub screw holes to reduce any chance of spigot insulator lifting
- Simply sleeve over Madrid stainless steel core drill spigot prior to install. Install glass with spigot as per normal
- Can be retro-fitted to existing core drill Madrid spigots – carefully cut off excess base of spigot insulator to suit required insulator height
- Suitable for use with Madrid core drill spigots (MAD-S or POOLMAD-S)
- Specially designed top section prevents chance of pulling insulating cover away from spigot
- Sold as single unit (Spigot insulator, dress ring & 2x caps)

SUITS MADRID RANGE OF CORE DRILL SPIGOTS:
MADRID, POOL MADRID & POOL MADRID EXTENDED

NOTE: DRAWINGS ARE NOT TO SCALE

SPIGOT OPTIONAL EXTRAS

Spigot extender

200MM LONG

SS304

Order Code: S-XT

- M10 & M16 bolts at opposite ends enables extra anchoring in footings (helpful when working with sand)
- Stainless steel 304
- Suits Lifestyle, Madrid and Rio core drill spigots

Both spigot base and spigot extender must be encased by concrete or grout

Attach the extender to the spigot using either M10 or M16 threaded end depending on your spigot type

We offer a range of Stainless Steel 316 grade countersunk self tapping screws perfect for affixing base plated spigots to timber decks or stainless fittings to timber posts.

Each screw is expertly crafted with a hex head drive to ensure easy installation

Counter sunk timber screw - 4 pack

100MM LONG - SS316 (Hex head drive)

Order Code: CSK-100-4PK

- Heavy duty self tapping screw - 100mm long with M10 thread - Ø18mm outer head
- Hex head drive
- Ideal for fixing base plated spigots to timber deck
- Countersunk head allows screw to finish flush with top edge of base plate for neat finish

Bugle batten screw

75MM LONG - SS316 (Hex head drive)

Order Code: CSK-075

- Self tapping screw - 14G x 75mm long - Ø14mm outer head
- Hex head drive
- Ensure inner diameter of base plated spigot hole suits a screw with 14mm diameter outer head (Base plate hole diameter varies on spigot ranges)

Timber fixing kit

4 PACK - SS316

Order Code: S-110LAG-4PK

- M10 x 110mm timber lag screws x4 with nuts and washers
- Nuts fit under high domical covers. Fixing kit cannot be used with slimline covers (slimline covers use countersunk fixings)

Concrete fixing kit

4 PACK - SS316

Order Code: S-120ROD-4PK

- M10 x 120mm concrete threaded rods x4 with nuts and washers
- Nuts fit under high domical covers. Fixing kit cannot be used with slimline covers (slimline covers use countersunk fixings)

NEW!

GLASSMATE & GLASS BUDDY

The revolutionary new tool that increases speed and accuracy of glass installations

Increase speed & accuracy of installations

No need for timber bracing or chocks

Adjust tilt of glass quickly and easily by simply turning adjustment knobs

Raise or lower to millimetre perfection

Glass is self supported with a GlassMate at each end of panel

Durable powder coated aluminium tool for long term use

Order Code: **GLASSMATE**

Turn one knob to adjust tilt. Turn both knobs to raise or lower glass

Rubber to ensure glass panels are protected from scratching

30mm wide profile allows easy removal of tool between or underneath panels after installation

Durable powder coated aluminium

Easily adjust glass height and tilt with GlassMate!

Allow a 32mm minimum gap between or below panels to remove tool

★★★
**PATENTED
PRODUCT**
★★★

GLASS BUDDY

Made from durable marine plywood

Handy brace for clamping panels of glass together during installation to ensure perfect alignment

Wingnut on opposite side allows for fast and easy clamping

Order Code: **GLASSBUDDY**

VERSATILT ALUMINIUM

The Versatilt aluminium channel system with glass tilt adjustability sets the new standard for face mount and deck mount channel installations.

Channels available in clear anodised finish at 4200mm long with pre-drilled fixing holes suitable for either face mount or deck mount installation. Covers simply snap on to conceal all fixings. In a massive technical advancement, the patented rotator plates allow friction fitting and **TILT ADJUSTMENT** of glass inside the channel.

The Versatilt channel is perfect for pool fence installations and particularly face mount situations.

- Suits 12mm to 15mm toughened glass (including SGP toughened laminate glass)
- Channel finish is clear anodised - Covers available in brushed satin anodised or mill finish
- Face mount & deck mount styles available - 4200mm long
- Pre-machined elongated fixing holes
- Easy snap-on covers hide all fixings
- Highest quality complete channel system + easy to install!
- For corner installations there is no need to mitre cut the channel itself. Simply cut covers for easy installation - Channel can butt join and be hidden by covers
- For pool fencing applications, use our 1350mm high 'Clear glaze' glass (See page 58)

Patented tilt adjustment

Adjust tilt of glass by adjusting the patented rotator plates inside channel

*Please take care to refer to relevant standards to ensure our Versatilt system is suitable for your needs as each installation situation/compliance requirement is unique

Face mount

NOTE: When installing Versatilt as face mount, consider using our 1350mm high 'Clear glaze' glass to achieve height required for pool fencing

Deck mount

NOTE: When installing Versatilt as deck mount, you must contact your local glass supplier for a custom made gate (not stocked by Glass Outlet)

Concealed in deck

NOTE: Ensure adequate water drainage points!
Not suitable for concrete slab concealing due to potential water retention

We want to make your job easier.

View our trade focused online installation videos for in-depth info on this revolutionary channel system

Order Code: VER-4200-FMK-M
VER-4200-FMK-SA

- Clear anodise aluminium 4200mm long channel (6063 - T6)
- Mill or brushed satin finish aluminium 4450mm long covers (6463 - T5)
- Pre-machined elongated fixing holes in channel
- 1x full cover, 1x top cover & 1x bottom cover

Face mount end plates

Mill or brushed satin finish

Order Code: VER-2FMEP-M
VER-2FMEP-SA

- 2x machined aluminium end plates (6063 - T5)
- Suits face mount channel
- Mill or brushed satin finish
- 4x SS316 panhead screws

Deck mount channel kit

Mill or brushed satin finish

Order Code: VER-4200-DMK-M
VER-4200-DMK-SA

- Clear anodise aluminium 4200mm long channel (6063 - T6)
- Mill or brushed satin finish aluminium 4450mm long covers (6463 - T5)
- Pre-machined elongated fixing holes in channel
- 2x full covers & 2x top covers (discard covers not required)

Deck mount end plates

Mill or brushed satin finish

Order Code: VER-2DMEP-M
VER-2DMEP-SA

- 2x machined aluminium end plates (6063 - T5)
- Suits deck mount channel
- Mill or brushed satin finish
- 4x SS316 panhead screws

Pressure plate kit

Order Code: VER-PPKIT

- Suits 12mm thick glass
- Use 4x plate kits per pool panel

Top infill

Order Code: VER-0300-TI

- 300mm long - cut as required
- EPDM black rubber
- Position between glass in channel

Alignment pins

Order Code: VER-PINS

- SS316 - 10 pack
- Use to join inline channels together

12mm glazing rubber

Order Code: VER-12KIT-RUB-10PK

- Pack of 10 lengths of glazing rubber to suit 12mm glass
- Optional spare part

Face mount pre-machined hole positions

Deck mount pre-machined hole positions

Please consult your engineer regarding suitability and structural integrity of the substrate as this will vary for each installation situation. We are unable to provide technical advice regarding suitability of substrate or fixings.

Using 15mm thick glass?

You'll need these.

15mm U gasket kit

Order Code: VER-15KIT-GAS

- Pack of 6 gaskets
- Thin U gasket to use with 14.28mm and 15mm thick glass
- Use with VER-PP-KIT: Simply discard standard U gasket

15mm glazing rubber kit

Order Code: VER-15KIT-RUB

- Includes 2x 4450mm (R2 & R14 bulb) rubbers to suit Versatilt covers
- Simply discard standard rubbers supplied with covers

Glass gate & hardware selection

To complement the finest quality glass panels and spigots, we also provide a complete range of hinge and latch gate hardware options

Firstly, choose between our **Master Range** 8mm thick or **Polaris Soft Close** 12mm thick toughened glass gates.

If using our **Master Range** 8mm thick gates, see pages 41-43 for installation configurations and pages 48-52 for hardware specifications

If using our **Polaris Soft Close** 12mm thick gates, see pages 44-47 for installation configurations and pages 53-57 for hardware specifications

GATE HARDWARE GUIDE MASTER RANGE

A Select **Master Range** gate required

8mm thick clear toughened

2mm radius corners

Suits master range hardware

6x 10mm holes

Complies with relevant Australian standards

Order Code	Width
08SLG-0750	750mm
08SLG-0834	834mm
08SLG-0890	890mm

B Select **Master Range** hinge set required

Master range glass to glass hinge set
SS316

Polish, satin or matt
black finish

Order Code: MR-GGH-P
MR-GGH-S
MR-GGH-B

Master range sq. post/wall to glass hinge set
SS316

Polish or satin finish
Order Code: MR-SPH-P
MR-SPH-S

Master range round post to glass hinge set
SS316

Polish or satin finish
Order Code: MR-RPH-P
MR-RPH-S

Suits Ø50mm round posts

C Select **Master Range** latch kit required

Master range glass to glass latch kit
SS316

Polish or satin finish

FRAMELESS GATE LAYOUTS POLARIS

► Glass to glass Polaris hinges with glass to glass latch

► Glass to glass Polaris hinges with wall/sq. post to glass latch

► Wall/sq. post to glass Polaris hinges with glass to glass latch

FRAMELESS GATE LAYOUTS POLARIS

► **Glass to glass** Polaris hinges with **external 90° corner fitting** latch

► **Glass to glass** Polaris hinges with **internal 90° corner fitting** latch

FRAMELESS GATE LAYOUTS POLARIS

► Square post to glass Polaris hinges with **glass to glass** latch

Important!

When using the Polaris square post fixing plates, a heavy duty post (at least 50.8mm square or larger) must be used

► Round post to glass Polaris hinges with **glass to glass** latch

Important!

When using the Polaris round post fixing plates, you must use a Ø50mm post. Due to the weight of the glass gate, we recommend using a post with a wall thickness of at least 2.5mm

MASTER RANGE HARDWARE

Complete hinge and latch configurations to suit semi-frameless and frameless applications

Latches

- Latches available for glass to glass, wall/post to glass and 90° corner applications
- High quality Downee latch supplied as standard for nylon side pull latches
- Optional D&D lockable latch can retrofit to any nylon side pull latch
- D&D fully stainless steel latches available
- Select between polish or satin finish - Matt black finish now available on selected latches

Glass to glass stainless steel latch kit

SS316

Polish or satin finish

Order Code: MR-FLGGSS-P (Polish)

MR-FLGGSS-S (Satin)

- Genuine D&D stainless steel side pull latch
- Friction keeper for glass to glass 180° application
- Suits 8mm, 10mm and 12mm glass gates
- Latch panel must be 12mm thick - no latch holes required

Hinges

- Self closing hinges are stainless steel 316 and incorporate an integrated "anti toe hold" cone cap
- Glass to glass, square post, round post and face mount hinges available
- Hinges are tested to cycle count self closing requirements

Glass to glass latch kit

SS316 & Polymer

Polish, satin or matt black finish

Order Code: MR-FLGG-P (Polish)

MR-FLGG-S (Satin)

MR-FLGG-B (Black)

- Downee side pull latch with SS316 backing plates
- Friction keeper for glass to glass 180° application
- Suits 8mm, 10mm and 12mm glass gates
- Latch panel must be 12mm thick - no latch holes required

MASTER RANGE HARDWARE

Wall/square post to glass stainless steel latch kit

SS316

Polish or satin finish

Order Code: MR-WGLSS-P (Polish)

MR-WGLSS-S (Satin)

- Genuine D&D stainless steel side pull latch
- Latch for wall/sq. post to glass gate application
- Suits 8mm, 10mm and 12mm glass gates

Wall/sq. post to glass latch kit

SS316 & Polymer

Polish, satin or matt black finish

Order Code: MR-WGL-P (Polish)

MR-WGL-S (Satin)

MR-WGL-B (Black)

- Downee side pull latch with SS316 backing plates
- Latch for wall/sq. post to glass application
- Suits 8mm, 10mm and 12mm glass gates

Round post to glass stainless steel latch kit

SS316

Polish or satin finish

Order Code: MR-RPLSS-P (Polish)

MR-RPLSS-S (Satin)

- Genuine D&D stainless steel side pull latch
- Latch for 50mm round post to glass application
- Suits 8mm, 10mm and 12mm glass gates
- Fixing plate suits Ø50mm round post
- 3x fixing holes for fixing to round post

MASTER RANGE HARDWARE

Glass to glass external 90° corner latch kit

SS316 & Polymer

Polish, satin or matt black finish

Order Code: **MR-FL90E-P (Polish)**

MR-FL90E-S (Satin)

MR-FL90E-B (Matt black)

- Downnee side pull latch with SS316 backing plates
- Friction keeper for external fit 90° glass to glass application
- Integrated hook plate ensures latch panel cannot be separated from gate
- Suits 8mm, 10mm and 12mm glass gates
- Latch panel must be 12mm thick - no latch holes required

Glass to glass internal 90° corner latch kit

SS316 & Polymer

Polish or satin finish

Order Code: **MR-FL90I-P (Polish)**

MR-FL90I-S (Satin)

- Downnee side pull latch with SS316 backing plates
- Friction keeper for internal fit 90° glass to glass application
- Specially designed locking clasp mechanism ensures latch panel cannot be separated from gate
- Suits 8mm, 10mm and 12mm glass gates
- Latch panel must be 12mm thick - no latch holes required

Key included

Retro fit to master range latch kits for a lockable latch

Face mount latch

Black Polymer

Black finish

Order Code: **MR-FMLS**

Supplier Code: **MLSP52L**

- Key lockable D&D latch in black polymer finish
- All backing plates supplied with non-lockable nylon latches can be retro fitted with the D&D lockable latch

MASTER RANGE HARDWARE

Glass to glass hinge set - Pair of 2

SS316

Polish, satin or matt black finish

Order Code: **MR-GGH-P** (Polish)

MR-GGH-S (Satin)

MR-GGH-B (Black)

- Stainless steel 316 backing plates for premium finish
- Suits glass to glass application
- Cone cap incorporated to prevent toe hold
- Suits 8mm and 10mm glass gates
- Weight capacity of 25kg per pair
- For black hinges - genuine D&D Tru-Close hinges affixed to powder coated matt black stainless steel backing plates

Gate hinge & hinge panel hole dimensions

Glass cut outs at top & bottom of panels

Face mount hinge set - Pair of 2

SS316

Polish or satin finish

Order Code: **MR-FMH-P** (Polish)

MR-FMH-S (Satin)

- Suits face mount application - Use when hinging off the front face of a wall/post
- Cone cap incorporated to prevent toe hold
- Suits 8mm and 10mm glass gates
- Weight capacity of 25kg per pair
- Includes SS316 plate (on opposite side to hinge) for affixing glass gate to hinge

MASTER RANGE HARDWARE

Wall/sq. post to glass hinge set - Pair of 2

SS316

Polish or satin finish

Order Code: MR-SPH-P (Polish)

MR-SPH-S (Satin)

- Suits wall/sq. post to glass application
- Cone cap incorporated to prevent toe hold
- Suits 8mm and 10mm glass gates
- Weight capacity of 25kg per pair

Round post to glass hinge set - Pair of 2

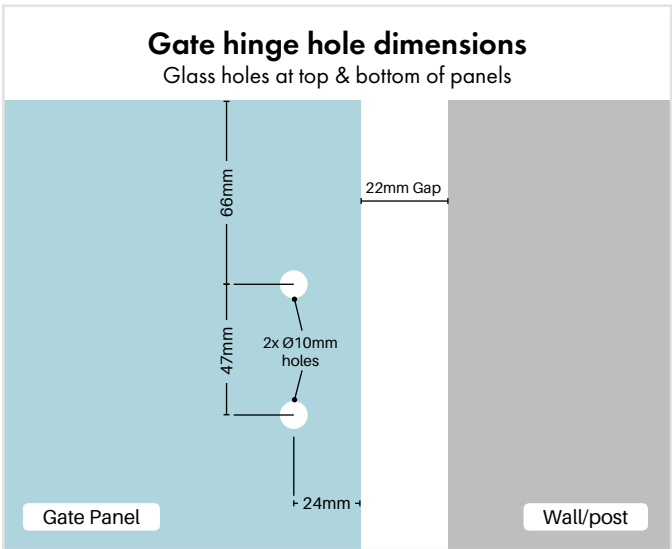

SS316

Polish or satin finish

Order Code: MR-RPH-P (Polish)

MR-RPH-S (Satin)

- Suits 50mm round post to glass application
- Cone cap incorporated to prevent toe hold
- Suits 8mm and 10mm glass gates
- Weight capacity of 25kg per pair

POLARIS

SOFT CLOSE HINGE

The Polaris Soft Close Hinge is a state-of-the-art product unrivaled in design, style and safety

The Polaris soft close hinge is the safest and most reliable specially designed pool fence hinge in the industry that complies with the stringent Australian Standards AS1926 and AS 2820.

New and improved **120 series** hinge is now made with duplex SS2205 stainless steel

Improved design features including commercial rated adjustable tension spring (tempered SS304) with multiple spring closing settings (soft, medium & strong) and the highest quality European made dampeners for smooth, soft close action

Self closing hinge suitable for 10mm and 12mm thick glass gates

Revolutionary anti-drop gate packing system significantly lowers the chance of gates dropping or sagging over time

Easy installation process - install guide included in each box

Available in polish, satin or matt black finishes

Highest quality dampeners

European made dampeners provide the smoothest soft close action on the market

POLARIS SOFT CLOSE HINGES

Glass to glass hinge set 120 SERIES

SS2205

Polish, satin or matt black finish

Order Code: PSC-120GG-P (Polish)

PSC-120GG-S (Satin)

PSC-120GG-B (Black)

- 2205 grade stainless steel
- Self closing pool fence compliant safety hinge
- Tested to cycle count Australian Standards requirements
- Adjustable closing speed with European dampeners providing a soft close action
- Cone cap incorporated on bottom hinge for anti-toe hold
- Suits 10 or 12mm thick glass gates (max 45kg)

POLARIS SOFT CLOSE HINGES

Glass to wall hinge set 120 SERIES

SS2205

Polish, satin or matt black finish

Order Code: PSC-120W-P (Polish)

PSC-120W-S (Satin)

PSC-120W-B (Black)

- 2205 grade stainless steel
- 4x fixing holes to wall/post
- Hinge can be installed while glass gate is in place
- Self closing pool fence compliant safety hinge
- Tested to cycle count Australian Standards requirements
- Adjustable closing speed with European dampeners providing a soft close action
- Cone cap incorporated on bottom hinge for anti-toe hold
- Suits 10 or 12mm thick glass gates (max 45kg)

POLARIS SOFT CLOSE HINGES

Backing plates are sold separately! You must purchase glass to wall hinges as well as the square post backing plates. Simply unscrew and remove the existing wall plates and replace with the square post backing plates.

Glass to square post backing plates 120 SERIES

SS2205

Polish or satin finish (not available in matt black)

Order Code: **PSC-120PLATE-SP-P (Polish)**

PSC-120PLATE-SP-S (Satin)

- 2205 grade stainless steel
- Backing plate suits a 50mm square post
- Hinge can be installed while glass gate is in place
- Self closing pool fence compliant safety hinge
- Tested to cycle count Australian Standards requirements
- Adjustable closing speed with European dampeners providing a soft close action
- Cone cap incorporated on bottom hinge for anti-toe hold
- Suits 10 or 12mm thick glass gates (max 45kg)

Square post hinge cut out specification

Glass cut outs at top & bottom of gate

POLARIS SOFT CLOSE HINGES

Backing plates are sold separately! You must purchase glass to wall hinges as well as the round post backing plates. Simply unscrew and remove the existing wall plates and replace with the round post backing plates.

Glass to round post backing plates 120 SERIES

SS2205

Polish or satin finish (not available in matt black)

Order Code: **PSC-120PLATE-RP-P (Polish)**

PSC-120PLATE-RP-S (Satin)

- 2205 grade stainless steel
- Backing plate suits a Ø50mm round post
- 2x fixing holes to post
- Hinge can be installed while glass gate is in place
- Self closing pool fence compliant safety hinge
- Tested to cycle count Australian Standards requirements
- Adjustable closing speed with European dampeners providing a soft close action
- Cone cap incorporated on bottom hinge for anti-toe hold
- Suits 10 or 12mm thick glass gates (max 45kg)

Round post hinge cut out specification

Glass cut outs at top & bottom of gate

PSC-120W & PSC-120PLATE-RP shown above

12MM CLEARGLAZE CHANNEL GLASS

For the minimalist look, Clearglaze channel glass is an ideal solution. Glass is grouted directly into the ground which removes the need for spigots. When preparing for new concrete pours, a slot can be left into which glass panels are inserted and then grouted in. For existing concrete areas, suitable concrete cutting can provide the required slot. Glass is 1350mm high to ensure the top of glass remains at 1200mm or more above finished floor level.

Order Code	Width	Height	Sqm	Weight
12CG-0800	800mm	1350mm	1.08	32kg
12CG-0900	900mm	1350mm	1.22	37kg

CLEARGLAZE CHANNEL GLASS INSTALLATION

Frameless rebate information

Concrete slab installation guide

(Use as a guide only as each installation situation is different)

Plinth installation guide

(Use as a guide only as each installation situation is different)

Any straight extrusion can be considered for U channel as it is only used as a straight guide for glass positioning. Ensure packers are used to separate glass from channel.
Consider using our mill finish aluminium U channel if required: XP-5800-U-M (5800mm long U channel)

GLASS STANDOFFS

Glass standoffs provide the ultimate finish in point fixing frameless glass panels.

Our glass standoffs are the highest quality and offer a range of installation advantages.

Made from precision machined 316 grade stainless steel, our standoffs are available in polish or satin finishes. Selected sizes are also available in matt black and matt white finishes. Specifically engineered for 12mm thick glass with a heavy duty 12mm M12 thread, our glass standoffs are ideally suited to any project.

Black nylon

Polish or satin finish

Order Code: **GS50W**

- Allows for packing out from wall
- Suits all Ø50mm body standoffs in our range
- UV stabilised black plastic - 1mm thick

Standoff tool

SS316

Order Code: **GSTOOL**

- Tighten or loosen Ø38mm & Ø50mm standoffs

A versatile tool that allows for easy installation of 38mm and 50mm diameter standoffs. Simply rotate the tool to suit the standoff diameter size.

Ø38mm

Ø50mm
standoff

SQUARE GLASS STANDOFFS

Standoff back view

2x Ø6.5mm holes
2x 6.5x12mm slots
M12 centre thread

40mm square cap x 30mm body standoff

SS316

Polish or satin finish

Order Code: **GS4030P-SQ** (Polish)

GS4030S-SQ (Satin)

- Modern 40x40mm square front profile
- CSK front screw with allen key head ensures front cap is always affixed in a level square position
- Suits M12 fixings

Versatile fixing standoff design

In addition to central M12 fixing, 4x further fixing points can be internally accessed to provide extra rigidity, particularly for timber installations

40x40mm flat cap (cap only)

SS316

Polish or satin finish

Order Code: **GS4040CAP-P** (Polish)

GS4040CAP-S (Satin)

- 40x40mm square cap
- Suits 40x30mm square standoff
- 5mm thick with CSK hole

40x40mm nylon washer

Black nylon

Order Code: **GS4040W**

- 40x40mm square washer
- Allows for packing out from wall
- UV stabilised black plastic - 1mm thick

GLASS STANDOFF ACCESSORIES

93mm lag screw

SS304

Order Code: **GS093LAG**

- M12 thread with 12mm coach screw - Hex drive head
- Suits timber or composite material installation
- Suits all standoffs in our range

115mm lag screw

SS304

Order Code: **GS115LAG**

- M12 thread with 12mm coach screw - Hex drive head
- Suits timber or composite material installation
- Suits all standoffs in our range

160mm lag screw

SS304

Order Code: **GS160LAG**

- M12 thread with 12mm coach screw - Hex drive head
- Suits timber or composite material installation
- Suits all standoffs in our range

120mm threaded rod

SS304

Order Code: **GS120ROD**

- M12 thread - 120mm long
- Suits all standoffs in our range

1000mm threaded rod

SS304

Order Code: **GS1000ROD**

- M12 thread - 1000mm long
- Cut down to suit your required length
- Suits all standoffs in our range

The ideal combination of a threaded rod through a stainless steel body mounted onto a single rigid threaded screw or lag screw results in a strong and secure standoff fixing for your project.

NOTE: 50 x 50mm standoff must use 160mm lag screw to fit body & cap entirely onto the screw.

*40x40mm square standoff does not allow for above configuration

RIGI CLAMPS

A contemporary clamp which acts as a brace between glass panels, providing extra rigidity to your fence.

We have an extensive range of RIGI clamps available to suit most installations.

Clamps are made from high quality stainless steel 316, available in polish, satin or matt black finish. The clamps are 'friction fit' meaning that the glass panels do not require pre-drilled holes for fitting.

Small rigi clamp

SS316

Polish, satin or matt black finish

Order Code: GC-RIGIS-P (Polish)

GC-RIGIS-S (Satin)

GC-RIGIS-B (Black)

- Friction fit rigi clamp
- Suits 12mm glass
- Ideal for panels with gaps between 20 - 50mm

Large rigi clamp

SS316

Polish, satin or matt black finish

Order Code: GC-RIGIL-P (Polish)

GC-RIGIL-S (Satin)

GC-RIGIL-B (Black)

- Friction fit rigi clamp
- Suits 12mm glass
- Ideal for panels with gaps between 20 - 95mm

90 degree rigi clamp

SS316

Polish, satin or matt black finish

Order Code: GC-RIGI90-P (Polish)

GC-RIGI90-S (Satin)

GC-RIGI90-B (Black)

- Friction fit rigi clamp
- Suits 12mm glass

NOTE: DRAWINGS ARE NOT TO SCALE

RIGI CLAMPS

Wall rigi clamp

SS316

Polish, satin or matt black finish

Order Code: **GC-RIGIW-P** (Polish)

GC-RIGIW-S (Satin)

GC-RIGIW-B (Black)

- Friction fit rigi clamp
- Suits 12mm glass
- Brace glass to walls/posts
- 2x countersunk fixing holes to wall/post

Use for timber fixing!

Bugle batten screw

50mm long - hex head drive

Polish or satin finish

Order Code: **CSK-050**

• SS316

• 14G x 50mm long with Ø11.5mm outer head

NEW!

Offset wall rigi clamp

SS316

Polish, satin or matt black finish

Order Code: **GC-RIGIW-O-P** (Polish)

GC-RIGIW-O-S (Satin)

GC-RIGIW-O-B (Black)

- Friction fit rigi clamp
- Suits 12mm glass
- Brace glass to walls/posts
- Easy install with offset fixing - clamp can be added after glass is installed
- Rotate for left or right side fixing
- 1x countersunk hole for fixing to wall/post

Swivel rigi clamp

SS316

Polish, satin or matt black finish

Order Code: **GC-RIGISWIV-P** (Polish)

GC-RIGISWIV-S (Satin)

GC-RIGISWIV-B (Black)

- Friction fit rigi clamp
- Suits 12mm glass
- Multi angle rigi clamp - a great solution for variable angle installs

SEMI FRAMELESS POOL FENCING

Semi frameless glass remains a popular and cost effective solution for pool fencing.

We have an extensive range of 1200mm high, 10mm thick clear toughened glass panels in incremental spans. Coupled with the Australis aluminium 50mm square post range and our modular glass gates, a visually stunning semi-frameless pool fence project can be easily completed.

The Australis aluminium range features a captive wedge glazing system which enables fast installation. Only one side of the glass requires glazing as the other side of the post has a simple slide in captive wedge which is inserted before the glass is lowered into position. Deep glazing pockets in the posts enable extra adjustment when installing panels.

Our range of modular glass widths have been designed to enable easy calculation of 'centre to centre' of posts when planning a

job (instead of having to determine the effect of aluminum posts on panel spans). For example, a 984mm wide panel is 1000mm from centre to centre of Australis posts; a 1534mm panel of glass is 1550mm 'centre to centre' of post and so on. Refer to page 74 for information.

Glass Outlet's semi-frameless system offers the highest quality products while ensuring the fastest and easiest installation possible.

8MM MASTER RANGE GATE PANELS

8mm thick clear toughened

2mm radius corners

Suits master range hardware

AUSTRALIS

50MM ALUMINIUM MODULAR SYSTEM

A complete pool fencing system which offers easy installation with a visually stunning end product that your clients will swoon over.

Post extrusions produced in Alloy Grade 6005A

6005A is a superior strength alloy which is stronger than the commonly used 6063 and 6060 grades. 6005A is often used in structural engineering projects.

Aluminium extrusions produced in accordance with AS/NZS 1866:1977

Extrusions produced to the chemical composition, mechanical property and dimensional tolerances in AS/NZS 1866:1997.

The glazing pockets are deep allowing for flexibility of installation

For example, the 1 way post glazing pocket is 28mm deep.

Captive wedge glazing system incorporated

Allows for increased speed of installation by requiring only the inner glass face to be manually glazed.

Screw flutes in glazing posts

Screw flutes strategically incorporated into the glazing post enable a range of installation advantages such as being able to screw fix a handrail, screw-fix base plates for pool fencing installation & enable top caps to be pressed securely in place to name a few key advantages. The Australis system with screw flutes minimises need for welding. Pre-welded base plated posts are available for fast assembly.

Standards Compliance for Pool Fencing and Balustrade

We have undertaken testing with **NATA approved authorities** to ensure compliance to load considerations are satisfied.

Genuine Interpon Powder used

Genuine Interpon powder is used for the silver and black finishes with Interpon manufacturer warranties provided.

ISO 9001 accredited industry leading extrusion manufacturing factory

These are guidelines that provide a comprehensive model for quality management systems with the objective to consistently produce top quality products.

16mm glazing pocket depth

Satin black, palladium silver or mill finish

Order Code: A50-1150-135-B/S/M (1150mm high)

A50-1400-135-B/S/M (1400mm high)

A50-1800-135-B/S/M (1800mm high)

A50-5800-135-B/S/M (5800mm high)

- Alloy 6005A - 2.5mm wall thickness
- Screw flutes to screw on base plate
- Suitable for 8mm, 10mm or 12mm thick toughened glass
- 1150mm, 1400mm, 1800mm or 5800mm high
(Aluminium top cap included with all posts except 5800mm high)

Welded base plate

One way base plated post

28mm glazing pocket depth

Satin black, palladium silver or mill finish

Order Code: A50-1400-1WBP-B/S/M (1400mm high)

- Alloy 6005A - 2.5mm wall thickness
- 10mm thick base plate with 4x Ø11mm holes welded to post
- Slimline domical cover available
- Suitable for 8mm, 10mm or 12mm thick glass
- 1400mm high (Aluminium top cap included)

1800mm base plated posts also available. Purchase 1800mm post plus separate base plate and screw together. Refer to page 72 for screws and base plate

Welded base plate

Two way base plated post

24mm glazing pocket depth

Satin black, palladium silver or mill finish

Order Code: A50-1400-2WBP-B/S/M (1400mm high)

- Alloy 6005A - 2.5mm wall thickness
- 10mm thick base plate with 4x Ø11mm holes welded to post
- Slimline domical cover available
- Suitable for 8mm, 10mm or 12mm thick glass
- 1400mm high (Aluminium top cap included)

1800mm base plated posts also available. Purchase 1800mm post plus separate base plate and screw together. Refer to page 72 for screws and base plate

Welded base plate

90° corner base plated post

17mm glazing pocket depth

Satin black, palladium silver or mill finish

Order Code: A50-1400-90BP-B/S/M (1400mm high)

- Alloy 6005A - 2.5mm wall thickness
- 10mm thick base plate with 4x Ø11mm holes welded to post
- Slimline domical cover available
- Suitable for 8mm, 10mm or 12mm thick glass
- 1400mm high (Aluminium top cap included)

1800mm base plated posts also available. Purchase 1800mm post plus separate base plate and screw together. Refer to page 72 for screws and base plate

Welded base plate

135° corner base plated post

16mm glazing pocket depth

Satin black, palladium silver or mill finish

Order Code: A50-1400-135BP-B/S/M (1400mm high)

- Alloy 6005A - 2.5mm wall thickness
- 10mm thick base plate with 4x Ø11mm holes welded to post
- Slimline domical cover available
- Suitable for 8mm, 10mm or 12mm thick glass
- 1400mm high (Aluminium top cap included)

1800mm base plated posts also available. Purchase 1800mm post plus separate base plate and screw together. Refer to page 72 for screws and base plate

23.5mm glazing pocket depth
Satin black, palladium silver or mill finish

Order Code:

A50-1400-HALF-B/S/M (1400mm high)

A50-1800-HALF-B/S/M (1800mm high)

A50-5800-HALF-B/S/M (5800mm high)

- Alloy 6005A - 2.5mm wall thickness
- Suitable for 8mm, 10mm or 12mm thick glass
- 1400mm, 1800mm or 5800mm high (Aluminium top cap included with all posts except 5800mm high)

Three way post

16mm glazing pocket depth
Satin black, palladium silver or mill finish

Order Code:

A50-5800-3W-B/S/M (5800mm high)

- Alloy 6005A - 2.5mm wall thickness
- Screw flutes to screw on base plate if required
- Suitable for 8mm, 10mm or 12mm thick glass
- 5800mm high only

Full post

Satin black, palladium silver or mill finish

Order Code:

XP-2400-FP-B/S/M (2400mm high)

XP-6000-FP-B/S/M (6000mm high)

- Alloy 6063 - Temper: T6
- 1.8mm wall thickness with 3mm ribs
- Screw flutes to screw on base plate if required
- No glazing pocket in post
- 2400mm or 6000mm high (Aluminium top cap included with 2400mm high post)

Post infill

Satin black, palladium silver or mill finish

Order Code:

A50-1400-INF-B/S/M (1400mm high)

A50-2800-INF-B/S/M (2800mm high)

- Alloy 6063 - Temper: T6
- Infill suits all Australis glazing posts
- Snap-in infill to set start point of glass height
- 1400mm or 2800mm high

Gate stile

Satin black, palladium silver or mill finish

Order Code:

A50-1400-GS-B/S/M (1400mm high)

- Alloy 6063 - Temper: T6
- Can be affixed to Australis posts or a wall
- Use as a surface to hinge from or latch to

Latch to or hinge from a gate stile

**Flat top plate****Satin black, palladium silver or mill finish**Order Code: **A50-TP-B/S/M**

- Aluminium flat top plate presses into post screw flutes for secure fixing with a flush fit
- Posts come with free top plate included (excluding 5800mm) - only purchase if extra top plates needed

**Flat top plate - 135° post****Satin black, palladium silver or mill finish**Order Code: **A50-TP-135-B/S/M**

- Aluminium flat top plate presses into post screw flutes for secure fixing with a flush fit - suits 135° post
- Posts come with free top plate included (excluding 5800mm) - only purchase if extra top plates needed

**Flat top plate - half post****Satin black, palladium silver or mill finish**Order Code: **A50-TP-HALF-B/S/M**

- Aluminium flat top plate presses into post screw flutes for secure fixing with a flush fit - suits half post
- Posts come with free top plate included (excluding 5800mm) - only purchase if extra top plates needed

**Flat top plate with extended lip****Satin black, palladium silver or mill finish**Order Code: **A50-TP-L-B/S/M**

- Aluminium flat top plate presses into post screw flutes for secure fixing
- 5mm extended lip to hide any cut marks on top edge of post

**Offset one way notched cap - extended lip****Satin black, palladium silver or mill finish**Order Code: **A50-OFF-1WC-B/S/M**

- Aluminium cap presses into post screw flutes for secure fixing
- Allows glass to extend past top of post
- 5mm lip covers any rough post cut marks

**Offset two way notched cap - extended lip****Satin black, palladium silver or mill finish**Order Code: **A50-OFF-2WC-B/S/M**

- Aluminium cap presses into post screw flutes for secure fixing
- Allows glass to extend past top of post
- 5mm lip covers any rough post cut marks

**Offset 90° notched cap - extended lip****Satin black, palladium silver or mill finish**Order Code: **A50-OFF-90C-B/S/M**

- Aluminium cap presses into post screw flutes for secure fixing
- Allows glass to extend past top of post
- 5mm lip covers any rough post cut marks

**Sitting blocks - Pack of 20****Black nylon**Order Code: **A50-SB-20PK**

- Separates bottom edge of glass from aluminium infill
- 4mm thick - pack of 20
- Simply push into glazing pocket

Aluminium dress ring

Satin black, palladium silver or mill finish

Order Code: A50-DR-B/S/M

- Suits 1 way, 2 way, 90° and full core drill posts

Aluminium 135° dress ring

Satin black, palladium silver or mill finish

Order Code: A50-135DR-B/S/M

- Suits 135° core drill posts

Domical cover

Satin black, palladium silver or mill finish

Order Code: A50-DC-B/S/M

- Alloy ADC12
- Suits all base plated posts

Two part domical cover

Satin black, palladium silver or mill finish

Order Code: A50-DC-2P-B/S/M

- Alloy ADC12 - Suits all base plated posts
- Can be fitted to posts after glass is installed - Discreet screws fixes two parts together around post and base plate

Square drive bit

Order Code: A50-SQDRIVE

- Sold as single drill bit
- Use 75mm CSK screws to affix base plated to posts
- Fits all standard drills

CSK 75mm long square drive

Order Code: A50-CSK75-12G

- 12G x 75mm long - SS304
- Pack of 100
- Use to affix base plate to posts

Suits full, 1 way, 2 way, 3 way & 90° posts

Aluminium base plate set

Satin black, palladium silver or mill finish

Order Code: XP-BP-SET-B/S/M

- Simply screw base plate onto core drill post
- Australis post extrusion specially designed with screw flutes
- 4x 12G x 75mm long CSK screws included in set
- Suitable for pool fencing load requirements

Screws included

Suits 135° posts

Aluminium 135° base plate (only)

Satin black, palladium silver or mill finish

Order Code: A50-135BP-B/S/M

- Simply screw base plate onto 135° core drill post
- Use 4x 12G x 75mm long CSK square drive screws (sold separately: A50-CSK75-12G)
- Suitable for pool fencing load requirements

Screws sold separately

GLAZING RUBBER

8MM GLASS PANELS P115/65 & YELLOW CAPTIVE

A50-P115/65-ROLL

A50-P40-10PK (10 pack - 1300m lengths)

- Rubber glazed into 1 side of post extrusion pocket and/or glazing rail (opposite side to captive wedge rubber)
- Suits 10mm glass with Australis series

Yellow captive glazing rubber

Order Codes: A50-CAP-YEL-ROLL (100m roll)

A50-CAP-YEL-10PK (10 pack - 1300m lengths)

- Captive wedge rubber inserted into 1 side of post extrusion pocket and/or glazing rail
- Suits 8mm, 10mm or 12mm glass with Australis series

12MM GLASS PANELS P41/22 & YELLOW CAPTIVE

A50-P41/22-ROLL

12MM THICK GLASS

A50-CAP-YEL-ROLL
A50-CAP-YEL-10PK**P41/22 glazing rubber**

Order Code: A50-P41/22 (100m roll)

- Rubber glazed into 1 side of post extrusion pocket and/or glazing rail (opposite side to captive wedge rubber)
- Suits 12mm glass with Australis series

Yellow captive glazing rubber

Order Codes: A50-CAP-YEL-ROLL (100m roll)

A50-CAP-YEL-10PK (10 pack - 1300m lengths)

- Captive wedge rubber inserted into 1 side of post extrusion pocket and/or glazing rail
- Suits 8mm, 10mm or 12mm glass with Australis series

PANEL LAYOUTS

10MM POOL PANELS 1200MM HIGH

The Australis system has been made with a gap of approximately 7mm at each end to ensure the glass and aluminium posts do not touch

Examples: An 1184mm wide glass panel achieves a 1200mm centre of post to centre of post

A 1584mm wide glass panel achieves 1600mm centres & so on

INFILL & SITTING BLOCK PLACEMENT

CORE DRILL POST

BASE PLATED POST

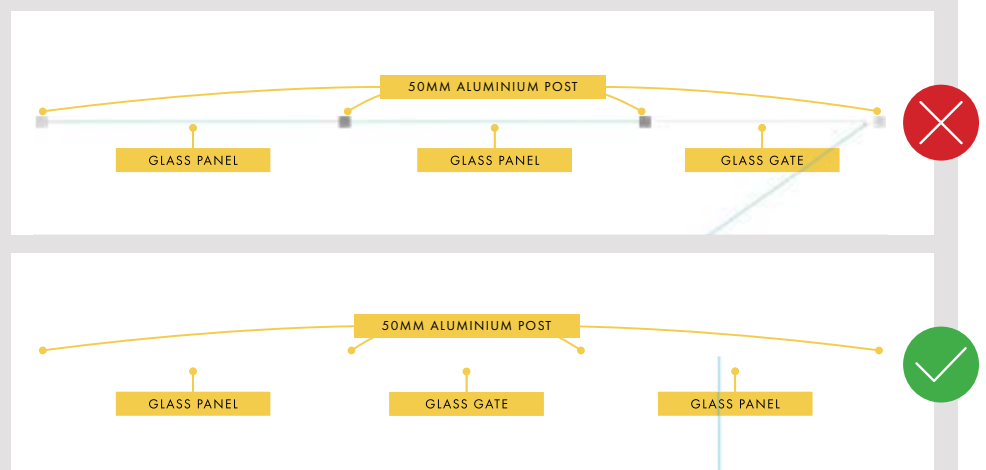

GATE INSTALL TIPS

GATE HINGED FROM STAND ALONE POINT

Due to the weight of the glass gate it is not recommended for a gate to be hinged from a stand alone aluminium post. A glass panel at least 400mm wide is recommended to be attached to the hinge post to give the post the support it needs. Alternatively, use a stainless steel heavy duty post for a stand alone gate post installation.

ALUMINIUM SQUARE POSTS

GATE HARDWARE GUIDE MASTER RANGE

Follow this simple guide on the configurations that can be achieved with each of the Master Range glass gates and hardware for semi-frameless installations.

A Select Master Range gate required

- 8mm thick clear toughened
- 2mm radius corners
- Suits master range hardware
- 6x Ø10mm holes

Order Code	Width	Height	Sqm	Weight
08SLG-0750	750mm	1200mm	0.90	18kg
08SLG-0834	834mm	1200mm	1.00	20kg
08SLG-0890	890mm	1200mm	1.07	21kg

SLOT 50 ROUND POSTS

For a stylish look, slotted round Ø50.8mm stainless steel 316 posts allow 10mm or 12mm glass to be seamlessly held in place with silicone (wet glazed). Stainless steel posts are sold in long lengths requiring cutting to required length prior to install.

One way slotted post
SS316L HIGH POLISH
Polish finish
Order Code:
SLOT50-5800-1W-P (Polish)

- 5800mm long
- 1.5mm wall thickness
- Ø50.8mm post with 15x15mm glazing channel
- Suits 10mm or 12mm glass (adhere with silicone)

Two way slotted post
SS316L HIGH POLISH
Polish finish
Order Code:
SLOT50-5800-2W-P (Polish)

- 5800mm long
- 1.5mm wall thickness
- Ø50.8mm post with 15x15mm glazing channels
- Suits 10mm or 12mm glass (adhere with silicone)

90° slotted post
SS316L HIGH POLISH
Polish finish
Order Code:
SLOT50-2900-90-P (Polish)

- 2900mm long
- 1.5mm wall thickness
- Ø50.8mm post with 15x15mm glazing channels
- Suits 10mm or 12mm glass (adhere with silicone)

ALSO AVAILABLE

50.8mm round tube
SS316 - 5800mm long
1.5mm wall thickness
Order code:
MOD50-5800C-50D-P

SLOT 50 COMPONENTS

Infill

SS316L HIGH POLISH

Polish finish

Order Code: **SLOT50-2000-INF-P (Polish)**

- 2000mm long - 1.5mm wall thickness
- Fits into glazing pocket - ensure sitting block is placed between glass and infill to avoid damaging glass
- Cut to required height - Epoxy or grout in infill

Sitting block

Black nylon - Pack of 20

Order Code: **A50-SB-20PK**

- 4mm thick
- Use as a separator between glass and stainless steel infill
- Pack of 20

Top cap

SS316L HIGH POLISH

Polish finish

Order Code: **SLOT50-EC-P (Polish)**

- Suits 1 way, 2 way & 90° posts
- Adhere with epoxy or rivet

15mm deep x
15mm wide notch

One way notched top cap

SS316L HIGH POLISH

Polish finish

Order Code: **SLOT50-C1W-P (Polish)**

- Suits 1 way slotted post
- Allows glass to extend past top of post
- Adhere with epoxy or rivet

15mm deep x
15mm wide notch

Two way notched top cap

SS316L HIGH POLISH

Polish finish

Order Code: **SLOT50-C2W-P (Polish)**

- Suits 2 way slotted post
- Allows glass to extend past top of post
- Adhere with epoxy or rivet

15mm deep x
15mm wide notch

90° notched top cap

SS316L HIGH POLISH

Polish finish

Order Code: **SLOT50-C90-P (Polish)**

- Suits 90° slotted post
- Allows glass to extend past top of post
- Adhere with epoxy or rivet

**Weld
application**

Flanged base plate

SS316L HIGH POLISH

Polish finish

Order Code: **MOD50-BPF-R-P (Polish)**

- External fitting base plate
- 3x Ø6.5mm CSK holes (Ø11mm outer)
- Can also be used as a wall plate

Dress ring

SS316L HIGH POLISH

Polish finish

Order Code: **SLOT50-DR90-P (Polish)**

- Suits all Slot50 posts
- Ø100mm outer - Ø54mm inner

Bostik V60 silicone

Order Code: **FB-V60**

- Architectural grade high performance glazing silicone
- Neutral cure sealant specially formulated; skins quickly & provides long term performance
- Seals water tight - UV weather resistant
- Excellent adhesion & flexibility

Devcon 2 part epoxy

Order Code: **DEV-EPOXY**

- 25mL bottle
- Resealable syringe
- Mixing tray and stick included

HEAVY DUTY POSTS HARDWARE GUIDE

MASTER RANGE HARDWARE

A Select Master Range gate required

8mm thick clear toughened
2mm radius corners
Suits master range hardware
6x Ø10mm holes

Order Code	Sqm	Weight
08SLG-0750	0.90	18kg
08SLG-0834	1.00	20kg
08SLG-0890	1.07	21kg

A heavy duty stainless steel post to hinge or latch a glass gate may be required in certain installation situations.

It is important a heavy duty post is used to prevent the post bending under the weight of the gate. It is also very important that the substrate is sturdy and cannot bend/ or flex - such as when installing a base plated post to a timber deck with a hinging glass gate.

B Select Master Range hinge set required

Master range sq. post/wall to glass hinge set

Substrate must be strong and not flexible. This is particularly important when installing heavy duty base plated posts to timber decks

MASTER RANGE HARDWARE

Complete hinge and latch configurations to suit semi-frameless and frameless applications

Latches

- Latches available for glass to glass, wall/post to glass and 90° corner applications
- High quality Downee latch supplied as standard for nylon side pull latches
- Optional D&D lockable latch can retrofit to any nylon side pull latch
- D&D fully stainless steel latches available
- Select between polish or satin finish - Matt black finish now available on selected latches

Hinges

- Self closing hinges are stainless steel 316 and incorporate an integrated "anti toe hold" cone cap
- Glass to glass, square post, round post and face mount hinges available
- Hinges are tested to cycle count self closing requirements

Side pull latch kit

Polymer with powder coated aluminium or SS316 striker
Silver, black or SS316 finish

Order Code: **MR-SFLSL-S** (Silver striker plate)
 MR-SFLSL-B (Black striker plate)
 MR-SF-SSS (SS316 striker plate only)

- Suits 50mm square and Ø50mm round posts
- Z shape striker plate ensures gate is centred to post
- Suits 8mm, 10mm and 12mm glass gates

Round post to glass latch kit SS316

Polish or satin finish

Order Code: **MR-RPLSS-P** (Polish)
 MR-RPLSS-S (Satin)

- Genuine D&D stainless steel side pull latch
- Latch for 50mm round post to glass application
- Suits 8mm, 10mm and 12mm glass gates

MASTER RANGE HARDWARE

Wall/square post to glass stainless steel latch kit

SS316

Polish or satin finish

Order Code: **MR-WGLSS-P (Polish)**

MR-WGLSS-S (Satin)

- Genuine D&D stainless steel side pull latch
- Latch for wall/sq. post to glass gate application
- Suits 8mm, 10mm and 12mm glass gates

Wall/sq. post to glass latch kit

SS316 & Polymer

Polish, satin or matt black finish

Order Code: **MR-WGL-P (Polish)**

MR-WGL-S (Satin)

MR-WGL-B (Black)

- Downnee side pull latch with SS316 backing plates
- Latch for wall/sq. post to glass application
- Suits 8mm, 10mm and 12mm glass gates

Retro fit to master range latch kits for a lockable latch

Face mount latch

Black Polymer

Black finish

Order Code: **MR-FMLS1**

Supplier Code: **MLSPS2L**

- Key lockable D&D latch in black polymer finish
- All backing plates supplied with non-lockable nylon latches can be retro fitted with the D&D lockable latch

MASTER RANGE HARDWARE

Face mount hinge set - Pair of 2

SS316

Polish or satin finish

Order Code: MR-FMH-P (Polish)

MR-FMH-S (Satin)

- Suits face mount application - Use when hinging off the front face of a wall/post
- Cone cap incorporated to prevent toe hold
- Suits 8mm and 10mm glass gates
- Weight capacity of 25kg per pair

GLASS GATE
SIDE

FACE FIX TO
POST/WALL
SIDE

Wall/sq. post to glass hinge set - Pair of 2

- Suits wall/sq. post to glass application
- Cone cap incorporated to prevent toe hold
- Suits 8mm and 10mm glass gates
- Weight capacity of 25kg per pair

Gate install tips square posts

Gate hinged from stand alone aluminium post

Due to the weight of the glass gate it is not recommended for a gate to be hinged from a stand alone aluminium post. A glass panel of minimum 400mm width is recommended to be attached to the hinge post to give the post the support it needs or alternatively brace a post to a wall or structure. If a standalone post must be installed, ensure a heavy duty stainless steel 50x50mm square post is used.

MASTER RANGE HARDWARE

Round post to glass hinge set - Pair of 2

SS316

Polish or satin finish

Order Code: MR-RPH-P (Polish)

MR-RPH-S (Satin)

- Suits 50mm round post to glass application
- Cone cap incorporated to prevent toe hold
- Suits 8mm and 10mm glass gates
- Weight capacity of 25kg per pair

Gate install tips round posts

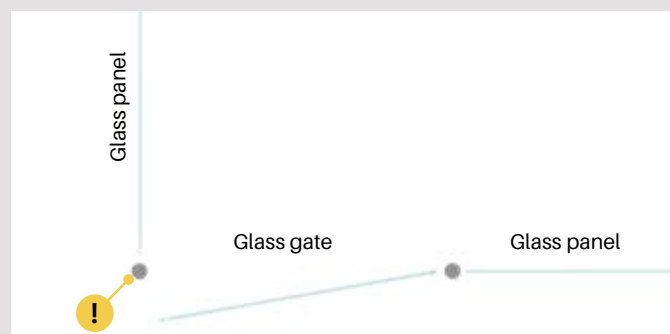

Gate hinged from stand alone aluminium post

Due to the weight of the glass gate it is not recommended for a gate to be hinged from a stand alone aluminium post. A glass panel of minimum 400mm width is recommended to be attached to the hinge post to give the post the support it needs or alternatively brace a post to a wall or structure. If a standalone post must be installed, ensure a heavy duty stainless steel Ø50mm round post is used.

Latch to a 90 degree corner

Please note that only a D&D full stainless steel round post latch (MR-RPLSS-P/S) will work on the below configuration.

This configuration will only function with MOD50 range posts and D clamps. This will not function with Australis or SLOT50 systems at a 90° corner

MOD40 & MOD50 SERIES

Stainless steel posts with D clamps are a stylish look for any pool fence. We can provide round or square stainless steel 316 posts with D clamps and accessories to achieve desired configurations.

MOD40 square

- Welded base plated posts available in 1000mm and 1300mm high
- Core drill posts available in 1150mm, 1400mm and 5800mm high
- 1.5mm wall thickness
- Stainless steel 316L - low carbon stainless steel

HEAVY DUTY

MOD50 heavy duty posts - Ø50.8mm

SS316L - 2.7mm wall thickness - various lengths

Polish or satin finish

Order Code: MOD50-1300-HDBP-P (Polish - Base plated)

MOD50-1400-HD-P (Polish - Core drill)

- Welded base plated posts available in 1300mm high
- Core drill posts available in 1400mm & 2800mm high
- Heavy duty 2.7mm wall thickness
- Stainless steel 316L - low carbon stainless steel

Ideal for hanging stand alone gates

MOD50 COMPONENTS

MOD50 domed end cap

SS316

Polish finish

Order Code: **MOD50-ECD-P (Polish)**

- Domed end cap - easy to use tap-in fitting
- Suits 1.5mm wall thickness MOD50 tube/posts
- Epoxy glue, weld or rivet tube for joining strength

MOD50 flat end cap

SS316

Polish finish

Order Code: **MOD50-ECF-P (Polish)**

- Flat end cap - easy to use tap-in fitting
- Suits 1.5mm wall thickness MOD50 tube/posts
- Epoxy glue, weld or rivet tube for joining strength

HEAVY DUTY

MOD50 heavy duty top cap

SS316

Polish finish

Order Code: **MOD50-HDTC-P (Polish)**

- Top cap to suit 50.8mm tube with 2.7mm wall thickness
- Suits MOD50 heavy duty posts
- Epoxy glue, weld or rivet tube for joining strength

Suits heavy duty posts (3mm thick wall)

MOD50 base plate flange

SS316

Polish finish

Order Code: **MOD50-BPF-R-P (Polish)**

- Round external fitting flange
- 3x Ø6.5mm holes (with 3x Ø11mm CSK holes on top)
- Suits MOD50 posts
- Weld or drill/tap tube for joining strength

MOD50 dress ring

SS316

Polish finish

Order Code: **MOD50-DR-P (Polish)**

- Suits MOD50 posts
- Ø54mm inner opening, Ø100mm outer

MOD50 COMPONENTS

MOD50 base plate

SS316

Polish finish

Order Code: MOD50-BP-P (Polish)

- Round base plate - Ø93mm outer
- 3x Ø11mm holes (with 3x Ø16mm CSK holes on top)
- 8mm thick
- Suits welding to MOD50 posts

MOD50 domical cover

SS316

Polish finish

Order Code: MOD50-DC-P (Polish)

- Slimline 20mm high domical cover
- Suits MOD50 posts to cover base plates

M8 blind rivet nut

SOLD INDIVIDUALLY

Order Code: MOD-M8-BRN

- SS304
- Threaded inserts for affixing D clamps to posts with 0.5mm to 3mm wall thicknesses
- Insert & crimp using hand rivet nut tool

M8 x 20 cap screw

SOLD INDIVIDUALLY

Order Code: MOD-M8-CS

- SS304
- Use with blind rivet nut to affix glass clamp to post

Rivet nut hand tool

HAND OPERATED

Order Code: RIV-TOOL

- Allows quick insertion of stainless rivet nuts into posts
- Push/pull rod for quick thread insert and release
- Includes M4, M5, M6, M8 & M10 mandrel set
- Adjustable stroke for different wall thickness on posts (0.5mm to 3mm)
- Spare M8 mandrel also available - Sold separately

Install guide for D clamps

1 Drill hole in post

Mark out & drill holes to suit diameter of blind rivet nut

2 Install the blind rivet nut

Using the rivet hand tool

3 Install the D clamp onto post

Screw the cap head screw into the blind rivet nut through D clamp

4 Insert rubber gaskets

Place the rubber gaskets onto both halves of the D clamp

5 Insert glass & tighten

Place glass into position and tighten the second half of D clamp

Finished!

GLASS CLAMPS

Glass clamps provide a smart & functional solution for clamping glass panels.

Our glass clamps are made from high quality 2205 grade stainless steel, available in polish or satin finish. Perfect for any semi-frameless pool fencing project.

All of our glass clamps come complete with gaskets to suit 8mm, 10mm or 12mm glass and are designed for friction fitting which eliminates the need for drill holes in glass panels.

Note: Please take care to refer to relevant standards to ensure our D clamps are suitable for your needs as each installation situation/compliance requirement is unique

Slimline clamp - Square front, flat back SS2205

Polish or satin finish

Order Code: **GCS-S-FB-P (Polish)**

GCS-S-FB-S (Satin)

- Slimline 45x45mm shape
- Premium grade SS2205 in polish or satin finish
- Gaskets included to suit 8mm or 10mm glass only (not suited to 12mm glass)
- Gaskets made from EPDM - highest quality gaskets available

Slimline clamp - Square front, round back SS2205

Polish or satin finish

Order Code: **GCS-S-RB-P (Polish)**

300g
Order Code: FB-V60

- Architectural grade high performance glazing silicone
- Neutral cure sealant specially formulated - skins quickly and provides long term performance
- Excellent adhesion and flexibility
- Seals water tight - UV and weather resistant
- 25 year manufacturer's guarantee against cracking and crumbling when used in standard conditions and applications*

- Compatible substrates glass, steel, timber, concrete, ceramic, fibreglass, aluminium (powder coated surfaces are limited)

Devcon 2 part epoxy

Order Code: DEV-EPOXY

- 25mL bottle
- Resealable syringe
- Mixing tray and stick included

Ultraloc Threadlocker 3242 compound

10ML BOTTLE

- Medium strength removable grade threadlocking compound for metal screws, nuts and fasteners from 6mm to 20mm in diameter

Order Code:
ULTRALOC-3242

Vinyl wedge roller

- Ideal for rolling wedge rubber

Order Code: **VROLLER**

Quick grip gloves

- One size fits all
- Pair of gloves

Order Code: **GLOVE**

*Not to be used in wet conditions

CPR sign

- Genuine Royal Life Saving QLD resuscitation chart
- Plastic coated

Order Code: **CPR**

Polaris grout

20kg bucket
Order Code: **GROUT-POL**

- Non shrink grout - rapid setting
- Aggregate free

Bostik HES grout

20kg bag
Order Code: **GROUT-BOS**

- Non shrink grout

Sika HES grout

20kg bag
Order Code: **GROUT-SIKA**

- Non shrink grout

Rapid set concrete

20kg bag
Order Code: **GROUT-RSC**

Post plugs

4 PACK
Order code: **SS-POSTPLUG-4PK**

- Ø32mm outer top suits 25mm hole
- Ideal for covering hole in post when affixing post to wall with inner fixing
- Suits post wall thickness 1.5mm - 3.2mm

Scaffold planks

227MM WIDE
Order Code: **SCAF-3000 (3m)**
SCAF-4000 (4m)
SCAF-6000 (6m)

- Lightweight, durable aluminium planks
- Hardwearing rubber on top and bottom
- Knurled aluminium for extra grip
- Australian standards compliant and tested

EXTRAS & ACCESSORIES

TAP COVER SPECIFICATION

Toe hold prevention covers

THERMOPLASTIC

Transparent finish

Order Code: COVER-POWER (Power point cover)

COVER-TAP (Tap cover)

- Transparent thermoplastic
- Cover features 60 degree angle to prevent a toe hold
- Ideal solution if tap or power point considered a step point
- Resistant to impact & chemicals
- Power point cover comes with 2 x predrilled fixing hole
Includes 2 x SS316 screws (ST5x40mm) & 2 x wall plugs
- Tap cover comes with 4 x predrilled fixing hole
Includes 4 x SS316 screws (ST5x40mm) & 4 x wall plugs

POWER POINT COVER SPECIFICATION

Self drilling tek screws

12Gx20mm - BAG OF 100

Black, woodland grey, monument, primrose, paperbark, silver & surfmist

Order Code: SS-TS-100-B (Black)

SS-TS-100-G (Woodland grey)

SS-TS-100-MN (Monument)

SS-TS-100-P (Primrose)

SS-TS-100-PB (Paperbark)

SS-TS-100-S (Silver)

SS-TS-100-SM (Surfmist)

- Self drilling tek screw featuring integrated thread and drill/cutting tip
- 12G x 20mm tek screw with hex head
- Used in a variety of aluminium fencing applications
- Packed in convenient bags of 100 screws

Conveniently
packed in
bags of 100
tek screws

Screening, battens & tubular systems

Be sure to ask for a copy of our other catalogues for more screening and fencing systems to complement our glass pool fencing.

DIAMOND REVOLUTION DRILL

Diamond revolution drill

Core drill

Order Code: **REV-CD-2S**

- 2 speed core drill - 1500W
- Comes with case, allen key, spare set of brushes and manual
- Safety switch
- Uses common size 1 1/4" UNC male thread for diamond core bits

Technical data

Voltage: 240V

Rated frequency: 50-60Hz

Rated input power: 1500W

No load speed r/min: 2100/950

Weight: 6.5kg

Diamond revolution stand

Suits diamond revolution core drill

Order Code: **REV-STAND**

- Steel and aluminium construction
- Height: 800mm
- Base: 330mm x 380mm
- Weight: 12.6kg

Core drill template

Assists with starting to core drill hole

Stabilises the drill bit from jumping

Order Code: **REV-TEMPLATE**

Spirit level for core drill

Screws into core drill machine

Assists with drilling accurate holes

Order Code: **REV-LEVEL**

Splash guard/ water trap

Order Code: **REV-GUARD**

Base for stand

Order Code: **REV-BASE**

Core drill bits

Mild steel body & diamond impregnated crown tip

8mm mini core drill bit

Order Code: **REV-BIT-08**

10mm mini core drill bit

Order Code: **REV-BIT-10**

12mm mini core drill bit

Order Code: **REV-BIT-12**

14mm mini core drill bit

Order Code: **REV-BIT-14**

20mm mini core drill bit

Order Code: **REV-BIT-20**

53mm core drill bit 53mm x 450mm long

Order Code: **REV-BIT-53**

63mm core drill bit 63mm x 450mm long

Order Code: **REV-BIT-63**

76mm core drill bit 76mm x 450mm long

Order Code: **REV-BIT-76**

83mm core drill bit 83mm x 450mm long

Order Code: **REV-BIT-83**

89mm core drill bit 89mm x 450mm long

Order Code: **REV-BIT-89**

A FRAME TROLLEY

A frame trolley with removable caster wheels

Includes caster wheels & ratchet straps

Order Code: TROLLEY-FP (Flat pack)

TROLLEY-A (Assembled)

- A frame is manufactured to comply with Australian standards
- 4x removable heavy duty caster wheels included
- Rated to 1600kg safe working load
- Rubber profiles, ratchet straps & retaining straps included
- Entire frame is hot-dip galvanised
- Forklift onto uts & trailers
- Forklift compatible from all four sides
- Ideal for transporting and storing glass, stone and other materials within the factory/warehouse
- 1100mm wide x 1808mm long x 1700mm high

Remove wheels and lift with a forklift onto back of ute

Other areas: Flat Pack ready to be assembled
3 boxes with assembly instructions
